

MEDDROPS

Help Keep Your Community Safe

Dispose of your unused and unwanted medications

The MedDrop collection system is a simple and effortless way to safely dispose of unused or expired medications. Help protect children from inadvertent drug ingestion or drug abuse and keep your fellow citizens safe from contaminated drinking water that results from flushing, trashing or tossing expired or unused prescription drugs.

What is Accepted?

All expired, unused or unwanted controlled, non-controlled & over-the-counter medications, including pet medications and liquid products such as cough syrup which must be tightly capped.

What is Not Accepted?

Trash, illicit drugs or commercial waste, sharps, syringes, regulated medical waste, thermometers, hazardous waste or aerosols.
